

# COTECNA INDIA COVID-19 MEASURES

The spread of COVID-19 has disrupted lives, livelihoods, communities, and businesses across India again. The responsibility of protecting each other from the pandemic has fallen on everyone.

As mitigating risks is our nature of business, Cotecna India is taking every step to protect our employee in every possible way and is fighting the pandemic one day at a time.

Here are few measures that we would like to highlight:

## Task Force

A Task Force of experts in their field has been created that is responsible to analyze the situation and come up with possible solutions.
